December 16, 2015

Topic: Background Information, Coffee Shops

A coffee shop or cafe is an important establishment for introducing nutrition-rich foods that have been deliberately de-emphasized.

Eggs and dairy are nutrient-rich sources of protein and Vitamin B12. For details, see categories: “Did You Know Fact Sheets, Food Choices” and “Health Articles” at http://articles.x10.mx

Human-like bots will need nourishment within 6 months.

Coffee shop projects should begin immediately.
