Behavioral traits follow a Gaussian or bell distribution. Twenty percent is a threshold that happens to correspond to the percent of Sirians in Earth's population.

Although a small percentage of Sirians are enthusiastic about God's Ascension Path, most are not.

A very large sample was needed to obtain clones suited for Realm 1.

Clones (mostly Sirian) **least** enthusiastic about beginning an Ascension Path.

This group is included in God's plan, but they are reluctant to accept His requirements.

Clones **most** enthusiastic about beginning an Ascension Path (matched for Realm 1).
