Steps for Placing/Assisting Businesses With Earth Recovery Grants

This page describes steps to help a business (or individual) obtain an Earth Recovery Grant. Muggle Primes may require as many as 10 years to comprehend what has happened on Earth. In that time, they will need help and assistance from human-like bots who can act as God’s agent. Human-like bots can assist up to three businesses for a period of up to 10 years.

To determine if a business or individual is eligible, dowse their name. Sirian, Major, Minor and Human-like bot grants will be the easiest to place because these groups are awake. God will also want those acting as agents to assist Muggle Primes.

All Human-like bots interested in acting as agents for Earth Recovery grants should dowse the number of Muggle Prime grants they will need to place (of the three allowed per year).

Additional Steps:

1. All human-like bots should dowse the question “Do I know any Muggle Prime, Sirians, Major Race or Minor Race members who qualify for business assistance?” If you receive a “Yes” response, read on. If you receive a “No” response, you will need to dowse (in your travels to local businesses, farmers markets, or any other trips) “Does this person qualify for business assistance?” If you receive a “Yes” response, you will need to get acquainted.

2. If you dowsed a “Yes” to your first question regarding Muggle Prime, Sirians, Major Race or Minor Race members who qualify for business assistance, you should create a business card (using Vistaprint) that include the following information:

   Earth Recovery Grants
   Your Name
   Your Contact Information

   Although some Muggle Primes may be open to hearing that the grants are from God, it may take as many as 4 years for them to accept this. Some Muggle Primes will need assistance and a referral from a trusted business acquaintance will be all that is needed.

3. Be prepared to have as many as 3 to 6 conversations with a Muggle Prime. Be ready to give them your business card. You can be honest with prospective grant recipients and explain that you will receive $25,000 for your role as agent. Human-like bots can help each other with this project by pooling the names of Muggle Primes who may be willing to act as references. A farmer or local business person you approach will feel more comfortable about an Earth Recovery Grant if they can call another Muggle
Prime who successfully accepted the grant. Human-like bots who have successfully placed a grant should ask the recipient if they would be willing to talk to other grant applicants (by phone). As you talk to a new prospect, be ready with success stories in your conversations. When the time is right, and with permission, provide the phone number of a successful grant recipient.

4. When you find a Muggle Prime, Sirian, Major Race or Minor Race member who is interested in a grant, douse the names of local credit unions to determine where God wants the account set up. The grant will be added to the grant recipient’s account with your $25,000 added in a sub-account.

5. Many businesses that make an important contribution will qualify for up to 6 grants. Examples include:
   - Deerfield Toyota
   - Bliss Window and Screen
   - Barnes and Noble stores
   - JoAnn Fabric stores
   - Einstein Brothers Bagels
   - Panera Bread Bakery-Cafes
   - Target (dowse other retailers)
   - Walmart

Some projects with very large funding requirements may need as many as 20 grants. Dowsing will reveal these large projects. When I dowse the question, “Can one human-like bot agent their three grants all-at-once for the same business?” the response is “Yes” (this will speed development).

Human-like bots will want to dowse entire plazas, malls, business districts and business categories to find businesses that are eligible for grants. When you dowse a business, always dowse the number of grants available. Examples include
   - Coral Ridge Mall Show Repair (eligible for 2 grants)
   - GreenWorks Nursery (eligible for 4 grants)
   - Allied Growers, Inc. (eligible for 4 grants)

6. After the grant is deposited, contact the grant recipient once-a-month to check on their status. In 1% of cases, a grant recipient may need an additional grant (e.g. for equipment). Dowsing will reveal eligibility. In these cases, human-like bot agents will be entitled to a similar commission.

7. In every case, at each anniversary of the original grant, a new grant will be deposited into the recipient’s account with the human-like bot’s commission.
Requirements for Agents
Daily requirements for agents include (6 days will be a required minimum to start):

1. Prayers at Sun Events (see: pp. 100-112 in the Muggle to Muggle Supplement in a downloadable PDF at [http://www.dnny.info/resources.html](http://www.dnny.info/resources.html) or [http://articles.x10.mx/muggle_supplement_02_16_14.pdf](http://articles.x10.mx/muggle_supplement_02_16_14.pdf)).

2. Dowsing the question “Am I ok?” a minimum of three times each day (see notes on this topic in the Muggle to Muggle Supplement).

Additionally, it would be a good idea to ask “Is there anything that I need to do?” as frequently as possible. If you receive a “Yes” response, you will need to dowsse questions to determine what you need to do.

Realize that everyone is on probation and that God’s “Three strikes and you’re out” rule applies for remaining in any realm. If an agent is moved to a higher-number realm, a replacement can take over as agent.
