Week of June 14, 2015 - Paid Internships & Degrees

Project Participants
Everyone in realms where available

Need To Know Information About God's Paid Internships and Degree Programs
Before there was an Amazon or Home Depot, there were thousands of local book stores and hardware stores. These independent stores were mostly family owned and the owners enjoyed selling products and providing important services.

Today’s Sirian-owned businesses, in a manipulated economy, use harmful practices to get ahead. For example, Jeff Bezos is developing a list business to compete with Angie’s List. This is harming rather than helping (and not in alignment with The Golden Rule). Do not harm your neighbor. Seek to provide a complementary businesses (dowse to obtain a correct direction).

Approximately 20% of today’s large businesses will survive the separation of realms. Because Asian manufacturing will exist in Realm 8, many companies will need to scale to an online-only business. In some cases, Muggle Primes and Muggle Clone Minors can take over managerial positions (see: Muggle Prime and Muggle Clone Minor New Hires). To offset large-scale business closings, God will support the development of new small businesses with paid internships and degree programs in retail and service industry sectors.

Earth destination realms are identical and most businesses have not yet closed. In realms with skilled staff, God will provide a weekly salary of $600 to interns interested in paid programs. Businesses with room for additional staff will receive $150 per week for each intern they add (dowse a total number). Internships last one year. God will also allow up to three internships per person.

Examples: Internships and Degree Programs, Service Related Businesses
The businesses in this section combine business services with a coffee shop in street-level accessible locations that function to:

• Introduce the business’s service to the public
• Promote a social exchange in a coffee shop that serves high-quality foods selected for nutritional value

After-hours, dowsed continuing education classes should be offered to interns (and the public for dowsed fee if there is available space) and cover every aspect of a skilled trade as well as coffee shop management (Note: coffee shop management is related to nutrition and needs a professional association and an annual conference). In most cases, graduates will dowse locations to form their own businesses (or, another paid internship). In some cases, business owners may decide to hire graduates in permanent
positions. The coffee shop/service business model is flexible and can also be used to create the following types of businesses:

1. (Agriculture) Dairy Animal Nutrition, Coffee Shop & Continuing Ed
   Degree: Dairy Animal Nutritionist and Food Service Specialist
   Closest Existing Model: Midwestern Bio-Ag, Blue Mounds, WI
