Style Sheet: Washing Dishes

1. At the present time, the only environmentally friendly soap to use in dishwater that does not go down the sewer is Pears.
2. Transport dirty and clean dishes in plastic shopping bags. Keep track of which bags are for clean dishes and which ones are for dirty dishes.
3. Outdoor sources of water are on the dock and the double stainless steel sink at Rec #4.
4. The towels you use will need to be air-dried until you machine wash clothes (see: the “Getting Settled” Style Sheet.
5. Nylon scrubbers will need to be dried. Small mesh nylon bags with draw strings have been provided for this purpose. Use S hooks on the drying rack for the mesh bags.
