Team 20, Week of June 7, 2015 #2: Presentation, Coffee Shop Plan, Walmart

New Developments
This document was originally dated May 10, 2015. In the weeks that have past, God’s plan has been refined. This presentation serves as a model for 60 realms. Detailed plans have been made available online to groups who will be relocated.

Presentation, Coffee Shop Plan, Walmart, Pompano Beach Branch Managers
At 10:30 a.m. on Friday morning, May 15, 2015, the Walmart store at 2300 W. Atlantic Blvd, Pompano Beach, FL 33069, was almost empty. The store has so few customers, it appeared that the managers had cleared the premises. This document presents a plan to create a coffee shop and later, a dairy bar, selling nutrient-dense food in two phases:

Phase #1: Coffee Shop in the Indoor/Outdoor Lawn and Garden Department

Introduction: Background Information
The state of Florida has very few independent coffee shops that function as sources of nutrient-dense food and social hubs. In contrast, the state of Wisconsin has more than 50 (See: “Coffee Shops and Restaurants in Wisconsin with the best environments, coffee and food” at http://articles.x10.mx/notes_for_sirians_additions_05_14_15.pdf

Walmart sells 95% of the equipment that would be needed to set up a wonderful coffee shop in a store that has an exquisite natural setting. The lake and Palm trees on the Walmart property are exceptional. If Walmart is to survive in Realm #1, the store’s products will need to be dowsed. This can be accomplished over time. A Walmart coffee shop inside the Pompano Beach store has been given to Sirians who have been relocated to Earth arrest destinations that are identical to Realm #1, but have different people.

Coffee shops are part of God’s plan to decompartmentalize a population that has been trained to lead isolated and independent lives. This type of business is so important, an association needs to be form that can offer an annual conference that helps managers and owners learn best practices.

Real estate in Wisconsin is so much less expensive than Florida, independent small businesses flourish. In Florida, where real estate prices are extremely high, it makes sense to create coffee shops inside large retailers that would benefit from increased store traffic.
Project Plan
The Walmart store in Pompano is a perfect store for building an important model. The Lawn and Garden department is very large and has indoor and outdoor sections. This plan complements a Permaculture Garden project that introduces the public to important plants for maintaining human and animal health. A dowsed list of plants that can be used to decorate a coffee shop and sold as started plants can be viewed at [http://southfloridawildlife.weebly.com/new.html](http://southfloridawildlife.weebly.com/new.html). Other, dowsed equipment for this project (sold by Walmart) includes:

**Walmart Tables and Chairs** (available for sale, details can be described in plexiglass tabletop frames)
- POLYWOOD® Recycled Plastic Nautical Breeze Patio Set - Seats 4 (umbrella table for outdoor area, mahogany finish, note: color preference for umbrella - Earth tone e.g. tan, green, rust)
